

# FLIPBOOKS

Our Flipbooks are a convenient tool to access books on the go!

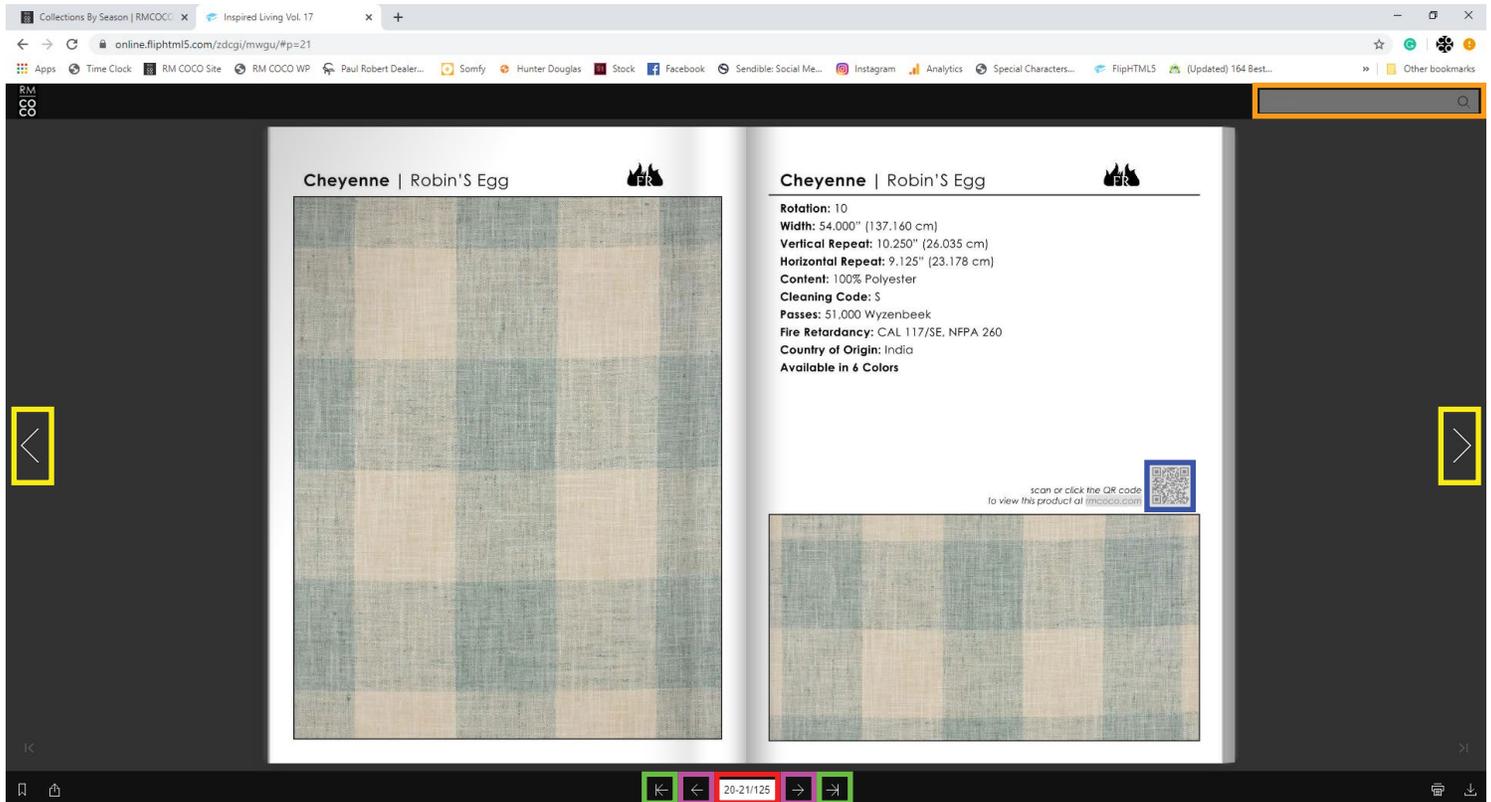

## 1. Where are Flipbooks located?

All of our available flipbooks can be located in the following locations:  
*Fabric -> Collections by Season* or *Trim -> View all Collections*  
and selecting "Flipbook" under the image of our book

## 2. The Basics

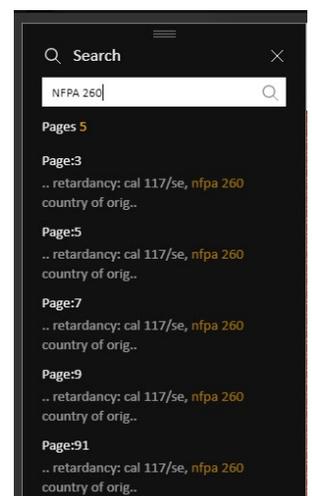

Flipbooks offer a range of tools but first we need to review the basic ways navigate a flipbook.

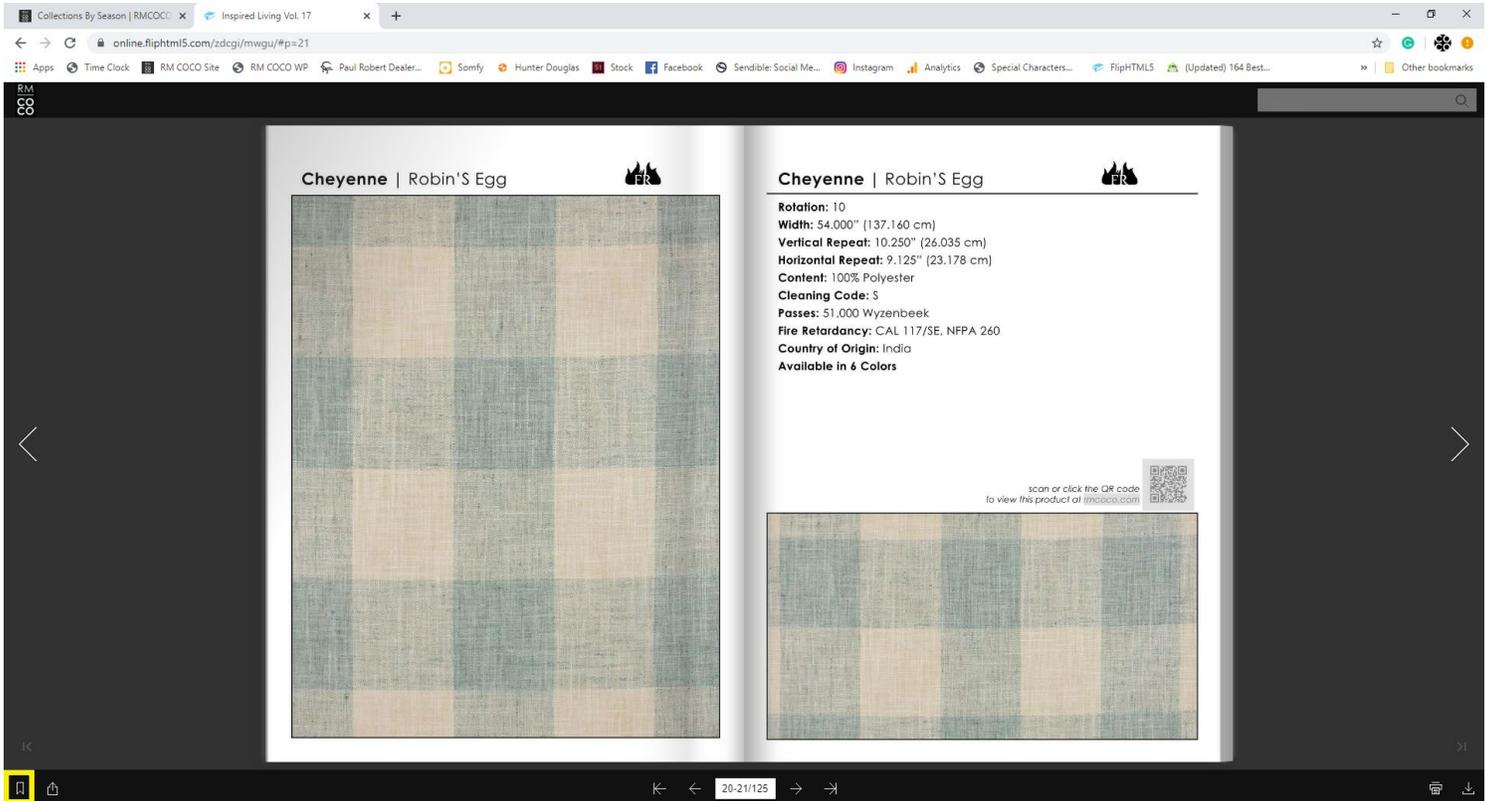

**Flipping the pages** - You can flip through our flipbooks by either using the arrow keys on your keyboard, clicking the arrows located on the left and right of the book (yellow), clicking the arrows on the bottom of the book (pink), or you can flip to the first or last page (green). If you know the page number you are trying to find, you can type it into the field located under the book (red).

**The Information** - Flipbooks offer the same information located in a physical book, but you can also view the fabric on the website by either clicking on the QR code if viewing the book online, or scanning the QR code if you have a printed page of the flipbook. (QR code highlighted blue).

**Searching** - Similar to our website, you can search for patterns or colors within the current flipbook (orange). Just type in what you're looking for and hit "enter" on your keyboard, the search dialog will pop up (right) and show you the results, click on any of them to go to that page. This search function isn't limited to patten/color, if you're looking for something that passes NFPA 260, type it into the search bar and the results will display.

## 2. Advanced Tools - Bookmarks

Bookmarks offer a great way to save the fabric you like to refer to at a later point in time.

- 1) Find the fabric you like and select the bookmark (yellow in image above)
- 2) A box will pop up (right) and ask you to assign a label name and color for the bookmark.
- 3) Select which page to apply the bookmark to (either the left or right page you are currently viewing).

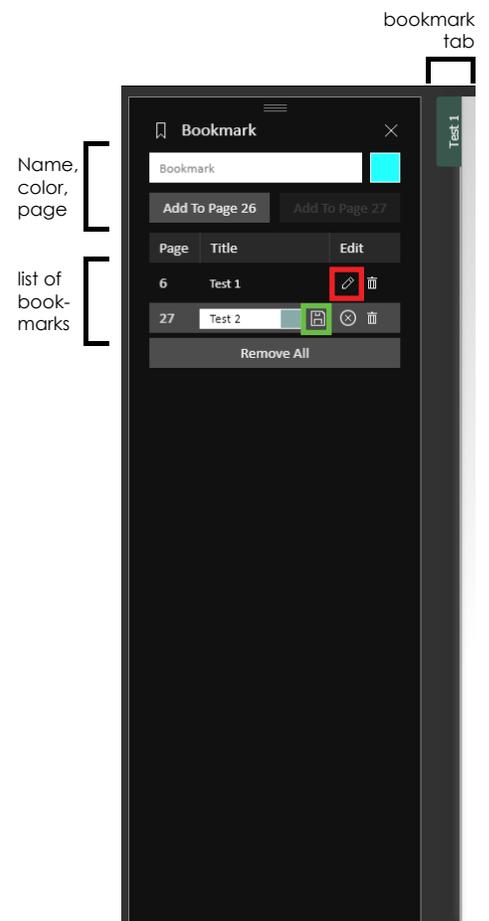

After you apply bookmarks, you can view them all in 2 places.

- 1) Click on the bookmark button again (yellow in image above) and the same box will pop up (right)
- 2) You will see a list of all your bookmarks, simply click on the name to go directly to that page

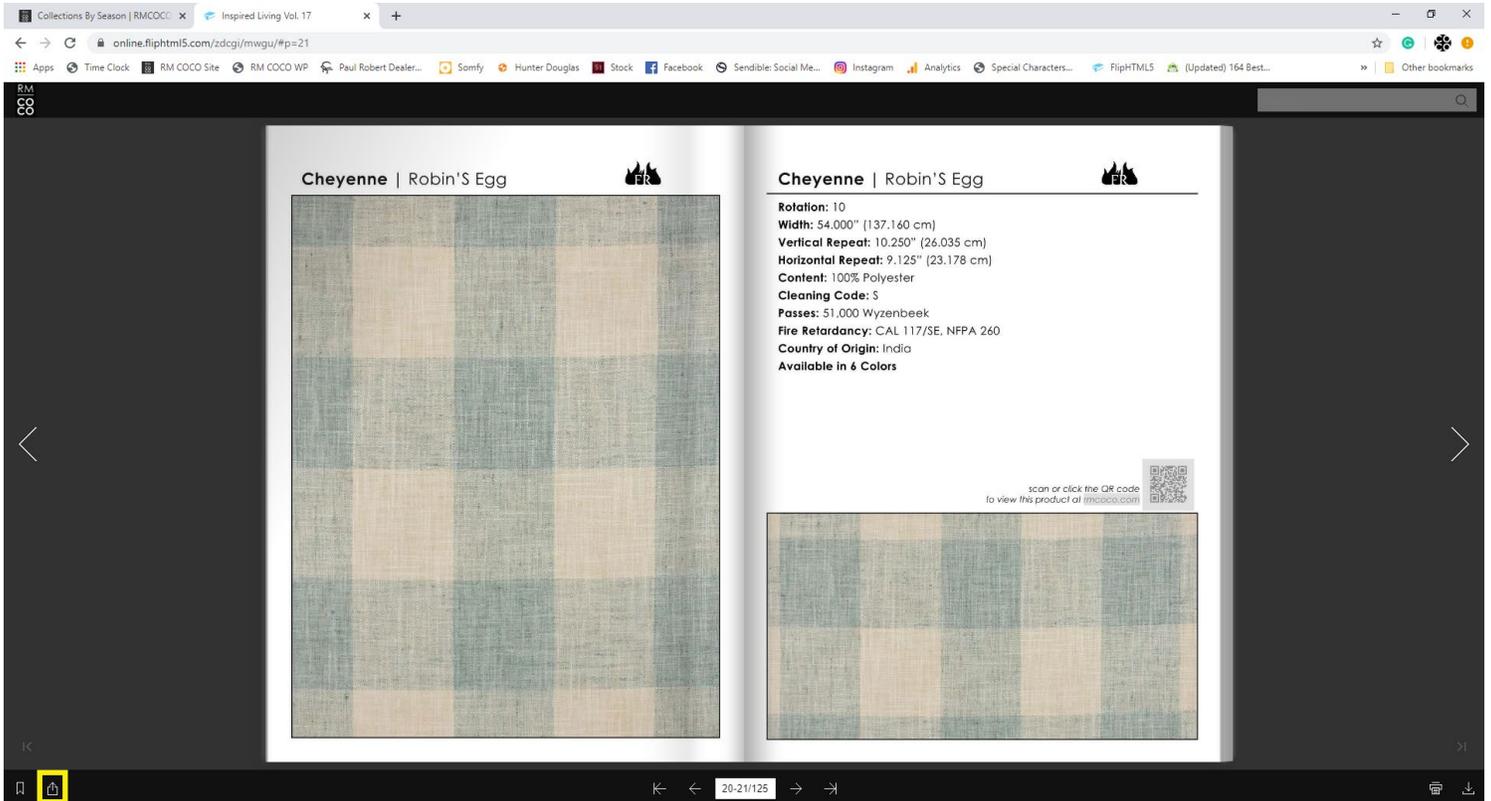

**or**

- 1) On the left side of the book you will see a tab for each bookmark, click on the tab to go directly to that page.

\*you can always edit the name/color of your bookmarks by clicking on the pencil icon (red) and then typing in a new name or selecting a new color, click save (green) when you're done.

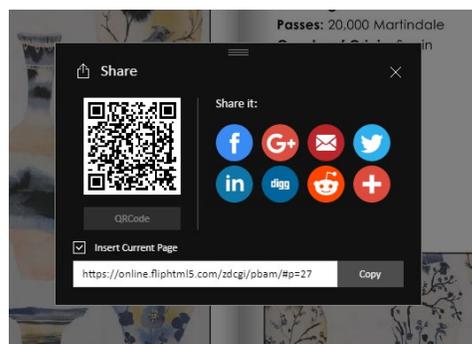

## 2. Advanced Tools - Sharing

You can share/send a page directly from the flipbook!

- 1) Go to the page you are wanting to share with someone
- 2) Click on the share button (yellow in image above) and the share pop up box will display (below)

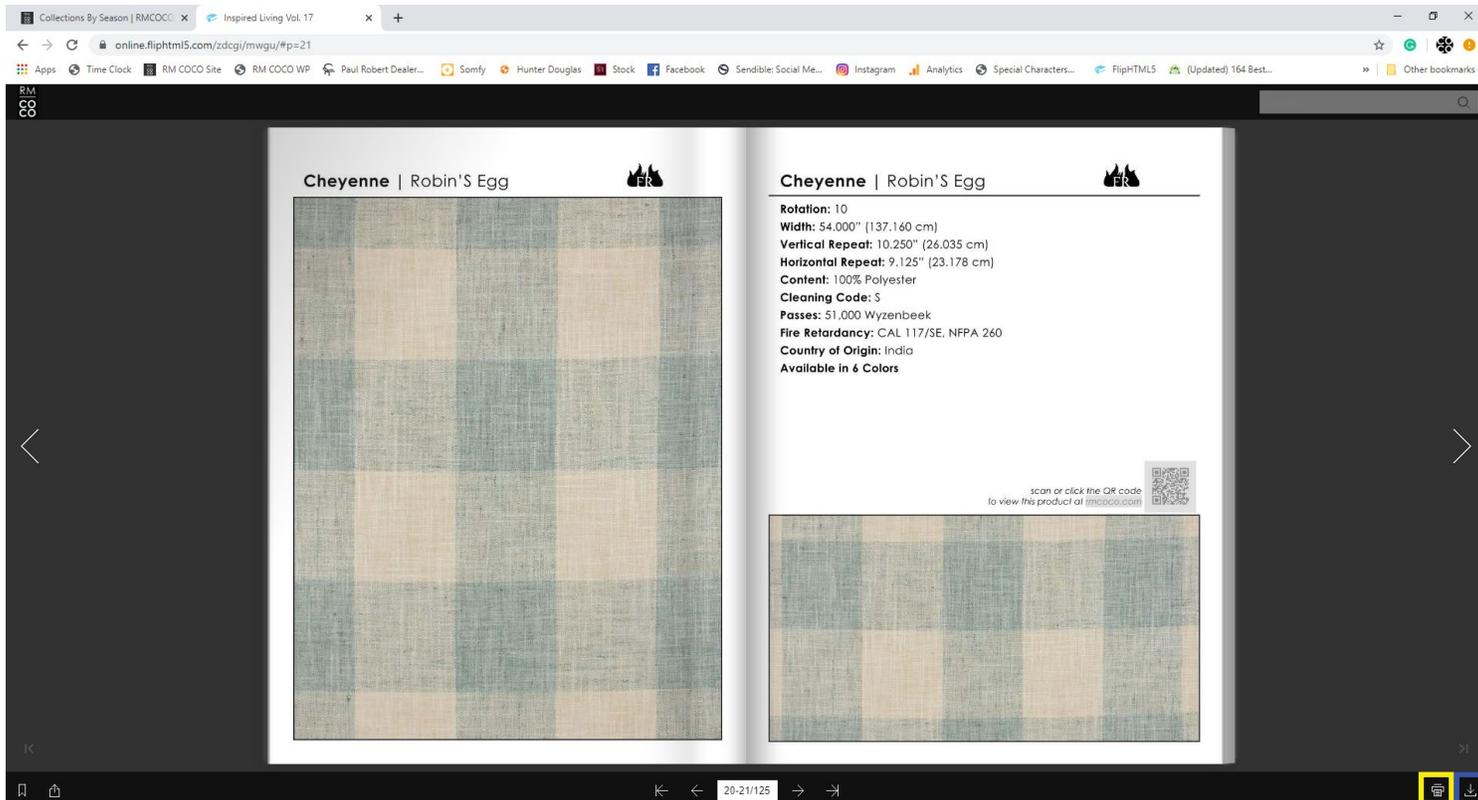

From here you have many ways you can share

- 1) If you are with someone, they can scan the QR code with their phone and that will take them to the flipbook page
- 2) Click on any of the share icons to share it to that specific platform
- 3) Click "Copy" to copy the URL and you can paste that link into emails that will take someone to flipbook page

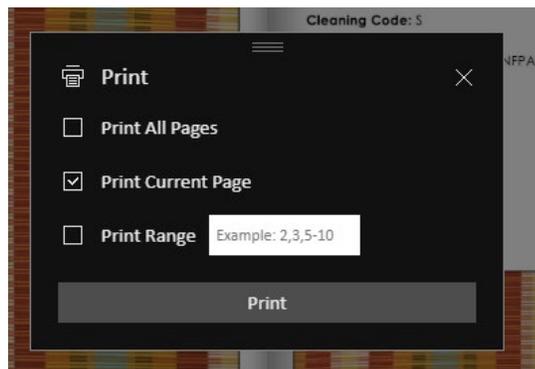

\*If you are sharing a specific page, make sure "Insert Current Page" has a check-mark next to it before you share anything.

## 2. Advanced Tools - Print and Download

### Printing

Click the print button (yellow) to pull up the print dialog (below), from here you can print all pages, current page, or a range of pages.

### Download

You can download a PDF of the Flipbook to save to any of your devices. Just click the download button (blue) and the download will start automatically!

\*once you download a PDF, most of the Flipbook features will be disabled since it will no longer be in a Flipbook format.
