Designed to Inspire.

For over 30 years, Paris Texas Hardware has been dedicated to evolving our legacy of providing exceptional design and superior service. Our in-house design team places you at the center of the design process while staying true to our heritage of curating designs that are uniquely our own.

We respect the important relationship between style and function in design and are excited to introduce many customized solutions that are perfectly balanced to inspire your vision into a reality.

Whether it's a Modern finial silhouette that has never been seen before, a Heritage Classic with a new twist or a customized traverse solution integrated with the latest smart home technology, we promise to provide you with something different - a collective style designed to inspire that you cannot find anywhere else in the world.

Trusted Heritage

In celebration of our 30 year anniversary, we promise to deliver on our rich legacy of providing high quality products, unique & elegant designs, a wide selection of finishes and superior service combined with designer expertise to elevate your design vision.

Wide Selection of Finishes

With a choice between our 35 Hand Painted Portfolio Finishes, 6 Quick Ship Metal Finishes, 5 Quick Ship Wood & Resin Finishes and PTH Perfect Match™, the possibilities are endless. Our talented artisans enjoy the challenge of creating any finish that you can envision.

Superior Service

Paris Texas Hardware promises to offer an enjoyable customer experience that includes honest dialogue and responsive feedback.

High Quality Products

Our products are tailored specifically to your needs and designed to be unrivaled in their ability to stand alone as the perfect combination of smart, decorative, durable and functional.

Available Stock | Quick Ship

When you need products to complete a project in a hurry, our Quick Ship Collection offers products that are in stock and ship within 24 hours. Available in 6 plated metal finish options, 5 wood & resin finish options, over 50 finial designs and many bracket and accessory styles.

Designer Expertise

Our talented team, with years of experience, are ready to help design the perfect window treatment solution for your project. Look for the icon throughout the catalog for tips, techniques and inspiration provided by our design experts, and download the full booklet using the QR code above, or by visiting: bit.ly/PTH-DE

Dimension Key

Poles Finials

Materials

Some finials, brackets, holdbacks and rings are made of resin composite materials. Resin may be damaged by cutting, drilling or attempting to alter the size or shape of products. Some items are made of cast aluminum or stamped steel. Wood poles and wood rings are made of various hardwoods. Metal poles and metal rings are made of metal or steel.

Poles & Rods

Wood poles may be spliced together using a dowel splicing screw, which is included with each pole. Metal poles may be spliced together using our pole splice, sold separately, or a dowel splicing screw where plastic inserts are included. We recommend a center support bracket for pole lengths in excess of four feet. We cannot guarantee against sagging caused by unsupported spans greater than our recommended four feet.

Finials

All finials are sold as pairs. Most resin finial bases have a \%" recess for a clean pole fit. Resin finials are fitted with a dowel screw that may not be removed without damaging the finial. 1 \%" metal finials are supplied with plastic inserts to attach the finials. 1 \%" metal finials are fitted with a set screw, which can be tightened using an allen wrench provided.

Brackets

Brackets are sold individually. Depending on the style of the bracket, there are three wall mounting styles; key lock, round mounting plate or front drill. Some heavier treatments may require stronger fasteners (mollies and screws) than those included with the brackets. Brackets should be installed securely into wall studs.

Rings

Rings are sold individually. Eyelets are not detachable from rings. Excessive movement of rings on the top of the pole will naturally abrade the finish. We recommend three to four rings per foot of finished pole length, or six to seven rings per width of fabric.

General Information

Production Time

Purchase orders are processed once they are received by Paris Texas Hardware. Incomplete information will delay processing and shipping. Quick Ship collections are in stock and ship within 24 hours. Quick Ship orders received before noon CST ship the same day. Portfolio custom collection is hand finished and ships within 10-15 business days.

Heavy Duty Corded or Baton & Motorized Traverse Systems Heavy duty traverse systems are available with or without decorative wood fascia, available in 1 3/6" or 2 1/4" smooth, reeded or grooved / fluted profiles with coordinating finials, 1 7/6" slim round smooth profile, 2 1/4" flat smooth profile with flush ends or mitered returns, in Portfolio, PTH Perfect Match™ and Quick Ship Wood & Resin. Production time for traverse system orders is 10-15 business days. Please refer to pages 49 & 77 for available fascia styles, sizes and finishes.

Metal Baton Draw & Motorized Traverse Systems
Metal traverse systems are available in 1 ⅓" and 1 ⅙"
Portfolio (except Antique Gold Leaf), PTH Perfect Match™,
Quick Ship Metal and Quick Ship Wood & Resin. All 1 ⅙"
and Wood & Resin 1 ⅙" require Transitional Cuff / Finial
Adapters to attach finials, sold separately. Production
time for traverse system orders is 10-15 business days.
Please refer to pages 32 - 41 and 63 - 73 for available metal
track sizes and finishes.

Pricing & Terms

Pricing found in the Paris Texas Hardware Price List are our Suggested Retail Prices. Prices are subject to change without notice. Due to the U.S. government's current policy on China tariffs, all products are subject to a tariff surcharge as of September 1, 2019. Prices are quoted exclusive of Freight and Packaging. The Buyer should always inspect the product upon receipt.

IMPORTANT: Please note that your order will be placed with an authorized Paris Texas Hardware Distributor. While most of the following will generally apply, your distributor may have terms and conditions of the sale that will vary from what is stated here.

Returns, Changes & Cancellations

All Portfolio and PTH Perfect Match™ products are custom painted and may not be Returned. Orders may not be changed or canceled once production has begun.

Quick Ship items may be Returned if poles are uncut and all products are received in sellable condition. A restocking fee of 40% will apply and the customer will prepay freight. All Returns must be authorized by the Paris Texas Hardware customer service department, and are authorized at our discretion, given the circumstances and nature of each order. A Return Authorization Number (RA#) must be issued by customer service, and the RA#

must be noted on all Return packages. Return Credit is issued on Returned goods that are inspected and deemed undamaged. Customers should exercise care to adequately package Return goods. Return Credit will not be issued for unauthorized Returns or damaged Returns.

Shipping (NET Fees)

All hardware orders are shipped FOB Dallas, Texas. Standard size orders ship using normal guidelines via UPS or FedEx ground. Average transit time is three to seven business days. Three Day Select, Second-Day or Next-Day Air services may be requested. Poles over 92" MUST be shipped by common carrier. For current common carrier freight rates and orders subject to actual freight costs, visit www.paristexashardware.com/freight-rate. Shipments exceeding these limits will require a special freight quote. Expedited shipments are not available in all areas. Any additional charges for expedited shipments will be in addition to the published net fees. Orders that contain a Li-ion battery will be charged a \$25.00 shipping surcharge.

Packaging Fees (NET Fees)

A net packaging fee of \$10.00 per order will apply to any order that has a pole. A net packaging fee of \$10.00 will apply to any order with a traverse rod less than 16 feet. The net packaging fee increases to \$25.00 for all orders with rods with returns; motorized traverse track; or poles, rods and corded traversing track 16 feet or longer.

Damaged Goods & Freight Claims

Immediately upon receipt, your order should be inspected to ensure that there is no damage from shipping. To report a claim, contact your Paris Texas Hardware distributor. <u>Damage and freight claims must be made within 15 days</u> of receipt of goods. Claims reported after 15 days will not be accepted. To expedite the claim process, please provide your distributor with the following information: purchase order number, Paris Texas Hardware order number, shipping phone number and address, a complete list of damaged items and a picture of the box/packaging. Freight companies require all packaging materials and damaged items to be kept for inspection. Merchandise damaged in shipping will be replaced. Our policy is that we replace damaged product per the original order. Please note on the Bill of Lading if there is any possibility of damage. If shipping through a 3rd party, distributor is responsible for claiming damages and the remakes will be at charge.

Installation

We recommend using a professional installer. Installation hardware is included. The fasteners (screws and mollies) may not be appropriate for every installation or wall material. Brackets and holdbacks should be installed securely into wall studs when possible. Paris Texas Hardware will not assume responsibility for damages incurred by improperly mounted or inadequately supported hardware.

Finishes

Finishes with antiquing, dusting or glazing will vary from product to product depending on the level of detail. Areas with deeper recesses will appear darker than smooth areas.

For the best possible finish match, refer to the 2022 Paris Texas Hardware Finish Chips. These chips have smooth, fluted and carved detailed areas, enabling you to see the beautiful shadings and highlights that make our finishes so special.

Portfolio

Portfolio Strike-offs: For a fee of \$50 (net) per finish / strike-off, Paris Texas Hardware will provide a sample of your Portfolio finish on any 6" wood or metal pole as requested. Customer approval of the strike-off sample is required before production will begin.

Portfolio Touch up paint: For a fee of \$20 per vial, touch-up paint can be sent to the customer on request.

PTH Perfect Match™

On your purchase order, specify the following:

- · Benjamin Moore® color name and number
- · Sheen level: high-gloss or eggshell
- · Highlight color, if desired (silver, gold, rose gold or glitter)

Each color specified (every time we purchase paint) will be subject to a separate minimum. If you have different colors for different rooms of hardware, please put them on separate purchase orders. Purchase includes 1 oz of touch-up paint. If there is enough of your Benjamin Moore® paint leftover, we'll keep it for 30 days. After 30 days, we'll dispose of it using an environmentally responsible paint service.

Single Color - No Highlight:

10% upcharge or \$100 minimum (net)

Strike-off available: For a fee of \$50 (net) per color, a sample of your Benjamin Moore® paint will be provided on a PTH sample chip. When you place your order, we will credit \$25 of this fee toward your order with that paint color.

Single Color - With Highlight:

15% upcharge or \$150 minimum (net)

Strike-off available: For a fee of \$60 (net) per color with highlight, a sample of your Benjamin Moore® paint with highlight will be provided on a PTH sample chip. When you place your order, we will credit \$30 of this fee toward your order with that paint color.

Order must be received within 30 days or strike-off paint will be disposed and no credit will be Issued. In lieu of purchasing strike-offs, we encourage you to use your Benjamin Moore® paint deck for color reference.

Traverse

Featuring the RIEC AUTOMATION® Slim Drapery Motor.

Designed to install seamlessly behind the drapery panel, providing the ultimate integrated functionality without compromising the look of your window treatment.

RIEO AUTOMATION° 1 3/8" Motorized Metal Traverse Systems

Motorized 1 3/8" Metal traverse systems create smart design solutions for both residential and commercial environments.

The slim drapery motor is designed to install seamlessly behind the drapery panel with quiet start / stop operation, the ability to easily charge without having to remove the motor and up to 500 open and close cycles per charge, providing the ultimate integrated functionality without compromising the look of your window treatment.

Finials may be ordered separately from 1 %" Diameter Collections. Modern Finial Collection do not require use of Cuff and attach using set screw. Today's Traditional and Heritage Classics Finial Collections require the use of the Transitional Cuff / Finial Adapter (sold separately). See page 40.

Select from 35 Portfolio hand painted finishes **(except Antique Gold Leaf)**, 6 Quick Ship Metal finishes, 5 Quick Ship Wood & Resin finishes or PTH Perfect Match™.

Single Traverse System, Wall Mount

- · Wall Bracket: 3 ½" or 6" return options
- Traverse system includes track, motor, power option, drive belt & clips, pulleys, pendants, brackets, glides, master carriers, Ainsley end caps and a Push5 handheld remote with wall mount
- 1 3/8" collection finials and additional remote options sold separately

Double Traverse System, Wall Mount

- · Wall bracket: 3" and 7 ½" returns
- Traverse system includes tracks, motors, power options, drive belt & clips, pulleys, pendants, brackets, glides, master carriers, Ainsley end caps and a Push5 handheld remote with wall mount
- 13/8" collection finials and additional remote options sold separately

Single Traverse System, Ceiling Mount

- Ceiling bracket: 3 11/16" drop
- Traverse system includes track, motor, power option, drive belt & clips, pulleys, pendants, brackets, glides, master carriers, Ainsley end caps and a Push5 handheld remote with wall mount
- 13/8" collection finials and additional remote options sold separately

Double Traverse System, Ceiling Mount

- · Ceiling bracket: 4" drop, 4 ½" between centers of tracks
- Traverse system includes tracks, motors, power options, drive belt & clips, pulleys, pendants, brackets, glides, master carriers, Ainsley end caps and a Push5 handheld remote with wall mount
- · 13%" collection finials and additional remote options sold separately

Single Traverse System, Low-Profile Ceiling Mount

- Ceiling bracket: 1 ½" drop
- Traverse system includes track, motor, power option, drive belt & clips, pulleys, pendants, brackets, glides, master carriers, Ainsley end caps and a Push5 handheld remote with wall mount
- 1 3/8" collection finials and additional remote options sold separately

Motor Weight Capacity

Use the Motor Weight Capacity chart below to determine if the slim drapery motor accommodates your length of track and your drapery weight. The System Features chart on page 34 lists the varied functions of the motor.

	maximum drapery weight per total length of system (lbs)			
Motor	18' or less	20'	22'	24'
AUTOMATION* Slim Drapery Motor	77	77	77	77

Note: 77 lbs. is the maximum weight for one-way or center draw panels for each track on single and double traverse systems. Capacity ratings are based on internal system friction only. External loads caused by fabric friction, drag or obstructions will adversely affect pulling capacity or stop motor due to resistance.

PTH Motorized Traverse Tips

- · Specified custom system length is from drapery return to drapery return including pulleys. Ainsley end caps included with the system, and will add 1/2" at each end, totaling 1".
- · Track will be spliced in the center of overall length.
- · R-TEC Motorized Traverse Systems carry a 5 year warranty; WARNING: Modifications of internal components will void R-TEC warranty.

Motorized Stack Back Calculation (each drapery panel)

R-TEC: master carrier + (# carriers on panel x carrier width) + 3.75" = stack per drapery panel

R-TEC 20 ft. one-way draw, Ripplefold® style 80% fullness Ex: 6.75" + (98 x .563") + 3.375" = 65.3" stack, underlap master panel BEFORE drapery fabric is installed

Please note: Calculations result in stack back width BEFORE drapery fabric is installed. Stack back width will increase once draperies are installed. Factors such as thickness of drapery fabric, type of drapery pleat and fullness of treatment affect the final stack back width. Please consult your workroom to determine your final stack back based on your draperies.

Fascia Profiles for Motorized Heavy Duty Systems

$1 \frac{3}{8}$ "

2 1/4"

Flat

*Fascia Profile is not available for back track in double systems and does not accept finials.

Slim Round

*Fascia Profile is not available for back track in double systems and does not accept finials.

RIEO AUTOMATION[®] Motorized Heavy Duty Traverse Systems

Create a commercial look with the benefits of motorization using our R-TEC Automation® Track.

The slim drapery motor is designed to install seamlessly behind the drapery panel with quiet start / stop operation, the ability to easily charge without having to remove the motor and up to 500 open and close cycles per charge, providing the ultimate integrated functionality without compromising the look of your window treatment.

Decorative wood fascia available in 1 3/8" or 2 1/4" smooth, reeded or grooved / fluted profiles with coordinating finials, 1 7/8" slim round smooth profile, 2 $\frac{1}{4}$ " flat smooth profile with flush ends or mitered returns.

Select from 35 Portfolio Hand Painted Finishes, PTH Perfect Match™ or 5 Quick Ship Wood and Resin Finishes.

Single

- Standard single brackets are adjustable: 2 1/8" 3 1/4" return
- Longer return bracket options may be substituted at no charge
- Traverse system includes track, fascia, motor, power option, drive belt & clips, pulleys, pendants, brackets, glides, master carriers and a Push5 handheld remote with wall mount
- Coordinates with all fascia profiles
- 1 3/8" and 2 1/4" finials and additional remote options sold separately

Single Traverse System With Mitered Returns

- Standard single brackets are adjustable: 2 1/8" 3 1/4" return
- Longer return bracket options may be substituted at no charge
- Traverse system includes track, fascia, motor, power option, drive belt & clips, pulleys, pendants, brackets, glides, master carriers and a Push5 handheld remote with wall mount
- Coordinates with all fascia profiles
- Additional remote options sold separately

- Standard single brackets are adjustable: 2 1/8" 3 1/4" return
- Standard double brackets are adjustable 4 5/8" 5 1/4" front return and adjustable 2" - 2 7/16" back return
- Longer return bracket options may be substituted at no charge
- Traverse system includes track(s), motor(s), power option(s), drive belt & clips, pulleys, pendants, brackets, glides, master carriers and a Push5 handheld remote with wall mount
- Available with no fascia; ceiling mount only available without fascia
- Additional remote options sold separately

Double

- Standard double brackets are 5 1/4" front return and 2" back return
- Longer return bracket options may be substituted at no charge
- Traverse system includes tracks, fascia(s), motors, power options, drive belt & clips, pulleys, pendants, brackets, glides, master carriers and a Push5 handheld remote with wall mount
- Coordinates with all fascia profiles
- 13/8" and 21/4" finials and additional remote options sold separately

- Standard double brackets are 5 1/4" front return and 2" back return
- Longer return bracket options may be substituted at no charge
- Traverse system includes tracks, fascia(s), motors, power options, drive belt & clips, pulleys, pendants, brackets, glides, master carriers and a Push5 handheld remote with wall mount
- Coordinates with all fascia profiles
- Additional remote options sold separately

Stationary Front Pole With Back Traverse

- Traverse system coordinates with all 2 1/4" round fascia profiles; flat and slim fascia may not be used
- Coordinates with 2 1/4" poles for stationary front pole; back track available with or without wood fascia.
- Stationary front pole and TBKT bracket are included
- Finials and additional remote options sold separately
- Full rings available on stationary

Motor & Power Options

Motor Weight Capacity

Use the Motor Weight Capacity chart below to determine if the slim drapery motor accommodates your length of track and your drapery weight. The System Features chart on the next page lists the varied functions of the motor.

			maxi	mum dı	apery w	eight pe	er total l	ength of	fsystem	(lbs)	
	Motor	18' or less	20'	22'	24'	26'	28'	30'	32'	34'	36'
RIEO AUTOMATION°	Slim Drapery Motor	110	110	110	110	110	110	110	110	110	110

Note: Capacity ratings are based on internal system friction only. External loads caused by fabric friction, drag or obstructions will adversely affect pulling capacity or stop motor due to resistance. Maximum System Lengths: If you need more than the maximum spliced length for a system, two one-way systems can butt against each other behind fascia. Must be specified on your order form. An additional arm component is needed to create an overlap between the two individual systems; sold separately.

Br	ackets	3	4	4	5	5	6	6	7	7	8	8	9	9	10	10	11

Motorized Stack Back Calculation (each drapery panel)

R-TEC: master carrier + (# glides on panel x carrier width) + 3.375" = stack per drapery panel

R-TEC Automation® 10ft. center draw, pinch pleat (standard 4 glides per ft.)

 $4.2" + [(40/2) \times .563"] + 3.375" = 18.84"$ stack, for each panel BEFORE drapery fabric is installed

Please note: Calculations result in Stack Back Width BEFORE drapery fabric is installed. Stack back width will increase once draperies are installed. Factors such as thickness of drapery fabric, type of drapery pleat, and fullness of treatment affect the final stack back width. Please consult your workroom to determine your final stack back based on your draperies.

Orders with R-TEC motorized traverse systems will incur a \$25 packaging fee.

Orders that contain a Li-ion battery will be charged a \$25.00 shipping surcharge.

Available in all profiles for 1 %, 1 % and 2 1/4 diameter fascias or without a wood fascia.

Systems are sold in 1 ft increments

Pricing Includes R-TEC Automation® Track, Brackets, Components, Motor, Power Option & Push5 Channel Handheld Remote with Wall Mount

PTH Motorized Traverse Tips

- Specified custom cut length indicates track length including drive gears; fascia will be 1/4" longer at each end of track (1/4" total); mitered fascia will add the following to the traverse system:

Fascia	Depth	+ to traverse system
1 3/8"	7/8"	2"
2 1/4"	13/8"	3"
Flat	3/4"	1 3/4"
Slim Round	5/8"	1 1/5"

- · Track and fascia will be spliced in the center of overall length.
- \cdot Blended fascia is available for an additional fee per blend; PTH will
- properly connect splice(s) and ship your fascia in one continuous length. · Back fascia can accommodate decorative end caps; decorative end
- R-TEC Motorized Traverse Systems carry a 5 year warranty; WARNING Modifications of internal components will void R-TEC warranties.

	R-TEC Single or Double TB060-R	$3^{5/16}$ " H x 1 1 /2" W backplate, 5 1 /4" front return and 2" back return Available in white or bronze /BR.	\$50.60 each
2	R-TEC Single, Double or Triple TB100-R	4½" H x 1½" W backplate, adjustable up to 9" return Available in white or bronze /BR.	\$50.60 each
	Ceiling Mount Clip Single RTMDTBCM	1/4" H x 2 1/4" D x 1 1/16" W May only be used in systems without fascia. For double ceiling mount installation, install two brackets into ceiling. Available in white.	\$3.00 NET each
	Fascia Mount Clip RTMDTFC	1/2" H x 1" W Use to attach fascia to traverse systems; included. Available in zinc.	\$2.50 NET each

R-TEC Single Motorized Bracket TB035-R

R-TEC Single or Double Motorized Bracket TB060-R

R-TEC Single, Double or Triple Motorized Bracket TB100-R

- * from 2-7/16" to 6-7/16" back return; 9" front return without fascia
- * from 2-7/16" to 5-3/4" back return; 9" front return with fascia

R-TEC Ceiling Mount Bracket **RTMDTBCM**

Please note: Ceiling Bracket will not accommodate fascia and finials.

Custom Over-**Bracket Single** TBKT214-R

 $3\frac{1}{2}$ " H x $\frac{3}{4}$ " W backplate, $7\frac{3}{8}$ " front return and 3" back return Use to combine 2 1/4 full wood pole with single traverse systems; includes traverse ceiling mount bracket attached onto the bottom of the over-bracket.

Steel

*Available in any of our 35 Portfolio hand painted finishes, 5 Quick Ship Wood & Resin finishes or PTH Perfect Match™

\$88.55 each

Custom Ceiling Single CMTB-R

2 3/4" H x 3/4" W backplate

for double ceiling mount installation, install two brackets

into ceiling.

Steel

*Available in any of our 35 Portfolio hand painted finishes, 5 Quick Ship Wood & Resin finishes or PTH Perfect Match™

When ordering, specify:

A. Fascia diameter and profile.

B. Projection to carrier and/or to front of fascia.

Drop from ceiling to carrier eyelet and/or from ceiling to top of

fascia (tip: finial must clear ceiling).

D. Width of mounting plate if longer than 2 3/4".

\$75.90 each

R-TEC Custom Traverse Bracket

TBKT214-R

Available in any Portfolio or PTH Perfect Match™ painted finish, or our 5 Quick Ship Wood & Resin finishes.

R-TEC Custom Traverse Ceiling Bracket CMTB-R

Available in any Portfolio or PTH Perfect Match™ painted finish, or our 5 Quick Ship Wood & Resin finishes.

When ordering, specify:

A. Fascia diameter and profile.

B. Projection to carrier and/or to front of fascia.

Drop from ceiling to carrier eyelet and/or from ceiling to top of fascia (tip: finial must clear ceiling)

D. Width of mounting plate if longer than 2 3/4".

Somfy Motorized Heavy Duty Traverse Systems

Motorized System is perfect for all treatments - from lightweight sheers to heavily lined fabrics, and is the ideal solution for treatments mounted where corded systems are not easily reached.

Decorative wood fascia available in 2 1/4" smooth, reeded, grooved / fluted profiles with flush ends or mitered returns. Finials may be ordered separately from 2 1/4" Portfolio or Quick Ship Wood and Resin.

Select from 35 Portfolio Hand Painted Finishes, PTH Perfect Match™ or 5 Quick Ship Wood and Resin Finishes.

Single

- Standard single bracket is adjustable 2 3/4" 3 5/8" return
- Longer return bracket options may be substituted at no charge
- Traverse system includes track, fascia, motor, power option, brackets, components and a standard 5 channel remote control
- Coordinates with all fascia profiles
- 2 1/4" finials and additional remote options sold separately

- Standard single bracket is adjustable 2 3/4" 3 5/8" return
- Longer return bracket options may be substituted at no charge
- Traverse system includes track, fascia, motor, power option, brackets, components and a standard 5 channel remote control
- Coordinates with all fascia profiles
- Additional remote options sold separately

- Standard single bracket is adjustable 2 3/4" 3 5/8" return
- Longer return bracket options may be substituted at no charge
- Traverse system includes track, motor, power option, brackets, components and a standard 5 channel remote control
- Available with no fascia; ceiling mount only available without fascia
- Additional remote options sold separately

Double

- Standard double brackets are adjustable 5" 5 3/6" front return and adjustable 1 3/4" - 2 3/8" back return
- Longer return bracket options may be substituted at no charge
- Traverse system includes tracks, fascia(s), motors, power options, brackets, components and a standard 5 channel remote control
- Coordinates with all fascia profiles
- 2 1/4" finials and additional remote options sold separately

- Standard double brackets are adjustable 5" 5 3/8" front return and adjustable 1 3/4" - 2 3/8" back return
- Longer return bracket options may be substituted at no charge
- Traverse system includes tracks, fascia(s), motors, power options, brackets, components and a standard 5 channel remote control
- Coordinates with all fascia profiles
- Additional remote options sold separately

- Standard double brackets are adjustable 5" 5 3/8" front return and adjustable 1 3/4" - 2 1/2" back return
- Longer return bracket options may be substituted at no charge
- Traverse system includes tracks, fascia(s), motors, power options, brackets, components and a standard 5 channel remote control
- Available with no fascia; ceiling mount only available without fascia
- Additional remote options sold separately

Single and Double Systems without Fascia can be curved for an additional fee:

Somfy Glydea®

Please note: Somfy Glydea® systems can be curved with a minimum 11.8" radius. All curves require a template. Curving track reduces weight capacity of motor. Please refer to motor specifications on page 56.

Somfy Motorized Heavy Duty Traverse Systems Information

Somfy Motorized Track

- · Track sold in 1 foot increments, 6' minimum
- · Maximum continuous length is 20'; spliced lengths up to 36'
- · Includes one motor, standard remote control 5-channel transmitter per track, and fascia with fascia clips when applicable
- · Available in white or bronze; track finish will complement fascia finish
- · End drive gears available in white
- · May be ordered with or without fascia options
- · Curved tracks available with minimum 11.8" radius; curving fees apply

Somfy Irismo™ 45 RTS Motor 1002353

- · Heavy duty motor, 1 per track
- · Maximum drapery weight for motor: 99 lbs
- · Maximum length for motor: 33'
- · 25.9V Li-ion Battery Power
- · Motor can be mounted on right or left for center draw,
- · Return hooks/snaps included; available in white
- · Available in white
- · 5 year warranty

Somfy Glydea® ULTRA 60e RTS Motor 1003159

- · Heavy duty motor, 1 per track
- · Maximum drapery weight for heavy duty motor: 132 lbs
- · Maximum length for heavy duty motor: 36'
- \cdot 110V Power Supply cord with plug: 120" cord length · Motor can be mounted on right or left for center draw, or top mounted; may also be hardwired
- · Return hooks/snaps included; available in white
- · Available in brushed aluminum
- \cdot 5 year warranty (warranty voided if hardwired)

Somfy Situo® standard remote control transmitter

1870575 (multi-channel handheld remote)

- · 5 1/4"H x 1 5/8"W
- · 1 remote control per track
- · 5 channels
- · Programmable My Position to set your favorite drapery position
- · Available in white

Somfy Irismo™ 35 Mini RTS Motor 1003004

- · Mini motor, 1 per track
- · Maximum drapery weight for mini motor: 77 lbs
- · Maximum length for mini motor: 32
- · 24V DC Power Supply cord with plug: 158.4" cord length
- · Motor can be mounted on right or left for center draw,
- · Return hooks/snaps included; available in white
- · Available in white
- · 5 year warranty

Somfy Glydea® ULTRA 35e RTS Motor

- · Light duty motor; 1 per track
- · Maximum drapery weight for light duty motor: 77 lbs
- · Maximum length for light duty motor: 32'
- · 110V Power Supply cord with plug: 120" cord length
- · Motor can be mounted on right or left for center draw, or top mounted; may also be hardwired
- · Return hooks/snaps included; available in white
- · Available in brushed aluminum
- \cdot 5 year warranty (warranty voided if hardwired)

Somfy Motorized Traverse System

includes 1 motor with power supply (1 per track), track(s) with components, brackets, and 1 standard 5 channel transmitter (1 per system), and fascia with fascia clips when

Motor Weight Capacity

Be sure to select the best motor for your window treatment. Use the Motor Weight Capacity chart below to determine which motor best accommodates your length of track and your drapery weight. The System Features chart on page 54 lists the varied functions of each motor.

					max	imum d	rapery w	eight p	er total l	ength o	f system	(lbs)		
		Motor	18' or less	20'	22'	24'	26'	28'	30'	32'	34'	36'	38'	40'
	Std	Glydea® ULTRA 35	77	77	77	77	77	77	77	77	-	-	-	-
somfy.	HD	Glydea® ULTRA 60e	132	132	132	132	132	132	132	132	132	132	-	-
30111 %	Std	Irismo 45	99	99	99	99	99	99	99	99	-	-	-	-
	Mini	Irismo 35	77	77	77	77	77	77	77	77	-	-	-	-

Note: Capacity ratings are based on internal system friction only. External loads caused by fabric friction, drag or obstructions will adversely affect pulling capacity or stop motor due to resistance. Curving: System curves reduce maximum drapery weight capacity by a minimum of 15% per bend. Please call us regarding weight capacity for your curved track. Maximum System Lengths: If you need more than the maximum spliced length for a system, two one-way systems can butt against each other behind fascia. Must be specified on your order form. An additional arm component is needed to create an overlap between the two individual systems; sold separately

Somfy Motorized Heavy Duty Traverse Systems Finishes

Decorative wood fascia available in 2 1/4" smooth, reeded or grooved / fluted profiles with coordinating finials, 1 1/8" slim round smooth profile, 2 1/4" flat smooth profile with flush ends or mitered returns. See page 49 for Fascia Profiles. Select from 35 Portfolio Hand Painted Finishes, PTH Perfect Match™ or 5 Quick Ship Wood and Resin Finishes.

Motorized Stack Back Calculation (each drapery panel)

master carrier + (# glides on panel x carrier width) + 3.75" = stack per drapery panel

Ex: Somfy 10ft. center draw, pinch pleat (standard 4 glides per ft.)

 $4.67" + [(40/2) \times .563"] + 3.75" = 19.7" \text{ stack, panel with over arm BEFORE drapery fabric is installed} \\ 4.07" + [(40/2) \times .563"] + 3.75" = 19.1" \text{ stack, panel with under arm BEFORE drapery fabric is installed} \\ 4.07" + [(40/2) \times .563"] + 3.75" = 19.1" \text{ stack, panel with under arm BEFORE drapery fabric is installed} \\ 4.07" + [(40/2) \times .563"] + 3.75" = 19.1" \text{ stack, panel with under arm BEFORE drapery fabric is installed} \\ 4.07" + [(40/2) \times .563"] + 3.75" = 19.1" \text{ stack, panel with under arm BEFORE drapery fabric is installed} \\ 4.07" + [(40/2) \times .563"] + 3.75" = 19.1" \text{ stack, panel with under arm BEFORE drapery fabric is installed} \\ 4.07" + [(40/2) \times .563"] + 3.75" = 19.1" \text{ stack, panel with under arm BEFORE drapery fabric is installed} \\ 4.07" + [(40/2) \times .563"] + 3.75" = 19.1" \text{ stack, panel with under arm BEFORE drapery fabric is installed} \\ 4.07" + [(40/2) \times .563"] + 3.75" = 19.1" \text{ stack, panel with under arm BEFORE drapery fabric is installed} \\ 4.07" + [(40/2) \times .563"] + 3.75" = 19.1" \text{ stack, panel with under arm BEFORE drapery fabric is installed} \\ 4.07" + [(40/2) \times .563"] + 3.75" + [(40/2) \times .563"] + [(40$

Please note: Calculations result in Stack Back Width BEFORE drapery fabric is installed. Stack back width will increase once draperies are installed. Factors such as thickness of drapery fabric, type of drapery pleat, and fullness of treatment affect the final stack back width. Please consult your workroom to determine your final stack back based on your draperies.

PTH Motorized Traverse Tips

• Specified custom cut length indicates track length including drive gears; fascia will be ¼" longer at each end of track (½" total); mitered fascia will add the following to the traverse system:

Fascia	Depth	+ to traverse system
1 3/8"	7/8"	2"
2 1/4"	13/8"	3"
Flat	3/4"	1 3/4"
Slim Round	5/8"	1 ½"

- Track and fascia will be spliced in the center of overall length.
- Blended fascia is available for an additional fee per blend; PTH will properly connect splice(s) and ship your fascia in one continuous length.
- Back fascia can accommodate decorative end caps; decorative end caps sold separately.

Orders with Somfy motorized traverse systems will incur a \$25 packaging fee. Orders that contain a Li-ion battery will be charged a \$25.00 shipping surcharge. Available in all profiles for 1 1%" and 2 1/4" diameter fascias or without a wood fascia. 1 1/4" not available with Somfy Systems.

1 1/8" Baton Draw Metal Traverse Systems

The perfect modern solution for residential or commercial applications.

Finials may be ordered separately from 1 1/8" Diameter Collections and require the use of the Transitional or Deco Cuff / Finial Adapter (sold separately). See page 67.

Select from 35 Portfolio hand painted finishes (except Antique Gold Leaf), 6 Quick Ship Metal finishes or PTH Perfect Match™.

Single Traverse System, Wall Mount

- Wall Bracket: 3 ½" or 6" return options
- Traverse system includes track, pendants, brackets, glides, master carriers and Emery end caps
- 1 1/8" collection finials and transitional or deco cuffs sold separately

Double Traverse System, Wall Mount

- Wall bracket: 3" and 7 ½" returns
- Traverse system includes tracks, pendants, brackets, glides, master carriers and Emery end caps
- 1 1/8" collection finials and transitional or deco cuffs sold separately

- Ceiling bracket: 3 5/16" drop
- Traverse system includes track, pendants, brackets, glides, master carriers and Emery end caps
- 1 1/8" collection finials and transitional or deco cuffs sold separately

Double Traverse System, Ceiling Mount

- Ceiling bracket: $3^{11}/_{16}$ " drop, $4^{1}/_{2}$ " between centers of tracks
- Traverse system includes tracks, pendants, brackets, glides, master carriers and Emery end caps
- 1 1/8" collection finials and transitional or deco cuffs sold separately

Single Traverse System, Low-Profile Ceiling Mount

- Ceiling bracket: 1 3/16" drop
- Traverse system includes track, pendants, brackets, glides, master carriers and Emery end caps
- 1 1/8" collection finials and transitional or deco cuffs sold separately

Upgrade your End Caps with Finial Styles

13/8" Baton Draw Metal Traverse Systems include End Caps, but are designed to work with all 13/8" Finials across three style categories. Today's Traditional and Heritage Classics Finials require the use of the Transitional Cuff/ Finial Adapter to work with Metal Traverse. Modern Finials do not require the use of the Finial Adapter.

Portfolio page 14 | Quick Ship page 93 | *Transitional Cuff/Finial Adapter PO138CUFF not required

Fascia Profiles for Manual Heavy Duty Systems

C-Rings with Fascia

Scan the QR code to the right or visit bit.ly/PTH-C-Rings for diagrams of all C-Ring Systems »

draw track

- 13/8" Double *shown on baton top of fabric ______ 9/16" eyelet drop 2-1/4" back return from 5-1/4" to 6" front return with fascia
- 2 1/4" Double *shown on baton top of fabric _____ 9/16" eyelet drop 2-1/4" back from 5-1/4" to 6" front return with fascia

- · C-Rings available for 1 3/8" and 2 1/4"
- · Corded or baton draw systems
- · Pinch pleat only
- · Not available for traverse systems with mitered returns or stationary front pole
- · For double traverse systems, C-Rings are for the front track only
- · Available in any of our 35 Portfolio hand painted finishes, PTH Perfect Match™ or 5 Quick Ship Wood & Resin finishes to match your fascia finish

Heavy Duty Corded or Baton Traverse Systems

Heavy Duty System is recommended for heavier treatments with lining. Longer lengths are versatile for residential or commercial projects.

Decorative wood fascia available in $1\frac{3}{8}$ " or $2\frac{1}{4}$ " smooth, reeded or grooved / fluted profiles with coordinating finials, $1\frac{7}{8}$ " slim round smooth profile, $2\frac{1}{4}$ " flat smooth profile with flush ends or mitered returns.

Select from 35 Portfolio Hand Painted Finishes, PTH Perfect Match™ or 5 Quick Ship Wood and Resin Finishes.

Single Traverse System

- · Coordinates with all fascia profiles or available with no fascia
- Standard corded single bracket has 3 % 5 % return; standard baton single bracket has adjustable 3 % 4 return
- Longer return bracket options may be substituted at no charge
- · Batons and finials sold separately
- · C-Rings available for 1 3/8" and 2 1/4"

Double Traverse System

Back track available with or without wood fascia. Back track shown with fascia and end caps.

- \cdot Coordinates with all fascia profiles or available with no fascia
- \cdot Standard corded double brackets have 3" back track and adjustable 6" 7 ½" front track return; standard baton double brackets have 2 ½" back track and adjustable 5 ½" 6" front track return
- · Longer return bracket options may be substituted at no charge
- · Batons and finials sold separately
- · C-Rings available for 1 3/8" and 2 1/4" (front track)

Single or Double Traverse System With Mitered Returns

Back track available with or without wood fascia. Finials and c-rings are not available with this option.

- · Coordinates with all fascia profiles
- Standard corded single bracket has 4" 5 ½" return; standard baton single bracket has adjustable 3 ¾" - 4" return
- Standard corded double brackets have 3" back track and adjustable
 6" 7 ½" front track return; standard baton double brackets have 2 ½" back track and adjustable 5 ½" 6" front track return
- · Batons and mitered returns sold separately
- C-Rings not available

Stationary Front Pole With Back Traverse System

2½" wood poles can be used. Back track available with or without wood fascia. Back track shown with fascia and end caps.

- Traverse system coordinates with all 2 1/4" round fascia profiles; flat and slim fascia may not be used
- \cdot Coordinates with 2 ½" poles for stationary front pole
- Stationary front pole and TBKT bracket finished to match pole are included
- · Batons and finials sold separately
- Full rings available on stationary front pole, sold separately;
 C-Rings not available

(if applicable, sold separately) Fiberglass or Clear Acrylic | Stainless Steel Clip 36", 48" or 60"

Note: Fiberglass Baton available in 5 Wood & Resin Quick Ship Finishes, 35 Portfolio finishes or PTH Perfect Match™.

Product information

- Single Corded or Baton traverse system price includes: traversing track, components, brackets (see system quantity chart on previous page) and 3 4 carriers per foot.
- Sold in 2' in increments, 4' minimum.
- · Cut to specified length. Fall off will not be saved or shipped.
- · Track maximum continuous length up to 240 inches (20'); splice lengths available up to 40' for center draw only.
- Track, bracket and components available in White or Bronze.
- Center or One-Way draw available.
- Fascia, if selected, in 1 3/8" or 2 1/4" wood pole profiles, available up to 16' in Portfolio or 12' in Quick Ship, is clipped onto traverse system track with a fascia L-bracket. Fascia over 16' in Portfolio finishes and 12' in Quick Ship finishes will be spliced.
- · Standard cord drop: 120"
- · Mitered fascia will add the following to the traverse system:

Fascia	Depth	+ to traverse system
13/8"	7/8"	2"
2 1/4"	1 3/8"	3"
Flat	3/4"	1 3/4"
Slim Round	5/8"	1 1/2"

Heavy Duty Stack Back Calculation (each drapery panel)

Heavy Duty pinch pleat: master carrier + (# glides on panel x .63") + 2.75" (0") = stack per drapery panel for cord draw (baton draw)

Heavy Duty Ripplefold*: master carrier + (# glides on panel x .563") + 2.75" (0") = stack per drapery panel for cord draw (baton draw)

*note: number of glides on panel depends on which fullness of Ripplefold tape being used. Consult your workroom for quantity.

EX: Heavy Duty pinch pleat, 20ft. one-way cord draw (standard 4 glides per ft.)

4.25" + [80 glides on panel x .63"] + 2.75" = 57.5" stack back, per drapery panel BEFORE drapery fabric is installed

Please note: Calculations result in Stack Back Width BEFORE drapery fabric is installed. Stack back width will increase once draperies are installed. Factors such as thickness of drapery fabric, type of drapery pleat, and fullness of treatment affect the final stack back width. Please consult your workroom to determine your final stack back based on your draperies.

Smooth Wood Pole QS214SM Wood

Grooved / Fluted Wood Pole QS214GR Wood

Reeded Wood Pole QS214RE

Wood

$2 \frac{1}{4}$ " Rings fit the $2 \frac{1}{4}$ " wood poles.

Note: Ring drop indicates distance from bottom of pole to bottom of ring. A ring's drop changes on different diameter poles.**

EZ Glide Tape

Included with pole order. Allows rings and grommets to slide effortlessly across the drapery rod without damaging the finish.

2 1/4" Accessories

Transitional Holdback Medallions

fit transitional holdback stems.

Don't forget to order your **Holdback Stems** separately ≥

Transitional Holdback Stems must order separately. Projection indicates distance from wall to back of medallion.
