We are pleased to offer you assistance in special pricing with your commercial bids for nursing homes, apartments, schools or hotels. Our contract division is experienced in this area and can assist you with ordering. Our contract workroom is available should you require finished products.

Note: Minimum order (1) yard - Fabric, Lining & Trim orders have a minimum requirement of one yard.

Cut Lengths - The length of your cuts is very important to us in the processing of your order. Occasionally, we must fill your order with more than one cut. Please make sure to specify your cuts when ordering.

Pattern Repeats - All pattern repeats are approximate. There may be slight variations from one dye lot to the next. In order to help avoid a shortage, we recommend you order slightly more when repeats are involved.

Dyelots - Due to inherent variation in dye lots, we cannot guarantee color matches unless a swatch of the desired color is submitted with the order. We will not accept the return of an order because of color variation from that of our sample. If dye lots are critical, please request a swatch for approval.

Silks - We do not guarantee silks against fading or for precise color matching, colorfastness and durability. Cutting from current stock is recommended.

Shrinkage - It is possible for atmospheric conditions to cause contraction or expansion in some fabrics. This is an inherent characteristic in many fabrics and we will not be held responsible should this occur. You may wish to minimize your risk by allowing adequate fabric in hems for potential adjustment, should it be necessary.

Flaws or Damages (Inherent Imperfections) - No one has come up with a remedy of eliminating flaws from fabric. One prevention for receiving a flaw in the middle of a panel is to include your desired cut lengths when ordering, so we may cut around flaws or allow additional yardage where necessary. In the event an extra length is necessary because of flaws, we urge you to advise us immediately as our yardage availability on the balance of your bolt of fabric may lessen each day as more orders come in. We keep a record of the bolt from which your cutting was made and at your request, will send you the additional yardage from that same bolt whenever possible.

Cancellations - Cancellations cannot be accepted after an order has been cut. Return goods policy will then apply. Please record the cancellation number, our employee's name and the date when placing a cancellation.

Credit Policy - Net 30 days is our standard open account terms. Open accounts require full payment on or before 30 days from your invoice date. Prevailing interest rates will be charged on all past due accounts. Current orders will be held and reviewed on accounts with unpaid invoices exceeding 30 days. Until open accounts are established, you may inquire about being set up on a C.O.D. basis. All open accounts require a completed and signed credit application. Additionally, should you prefer to prepay your order, please contact us in advance so we may calculate freight charges and advise you of the total due. Mastercard, VISA, Discover and American Express are also accepted. Electronic checks are also accepted. A $5.00 processing fee will be charged for all electronic checks.

Shipping & Delivery - All orders are filled and shipped the day we receive them via the fastest and most economical method unless you specify a carrier. Your orders must be received by 3:00pm CST to be shipped the same day with C.O.D. orders received by 1:00pm CST. All shipments are subject to shipping and/or handling charges.

Freight Claims - Accepting or refusing damaged shipments are the responsibility of you, the receiver. CHECK ALL SHIPMENTS carefully for damages upon receipt and prior to signing for receipt. Once accepted, damaged goods cannot be returned to RMCOCO without prior authorization. If packages/goods are delivered damaged then you must notify RM COCO immediately withing 48 hours of receipt of damaged package in order for us to notify carrier and file damage claims.

Claims/Damaged or Short Shipment - If this occurs, then:

- Have delivery driver note on the freight bill the nature and extent of damages or shortage.
- Contact RM COCO immediately within 48 hours of receipt to make arrangements and to file damage claim with carrier.
- Please do not destroy or throw away any of the packing materials until the shipment is inspected and the claim is settled.

Returns -

- No returns will be accepted for inspection or credit without authorization. Request for return of merchandise must include reason, description, quantity, invoice number, and date of invoice covering shipments. Upon approval of return, a prepaid return label will be sent to you. Simply call the toll-free number printed on the return label to schedule a pick-up of the return merchandise.
- Merchandise will not be accepted for credit 60 days after original shipping date.
- All credits will be applied toward your account. No cash refunds or checks will be issued.
- Cut yardage material should be inspected for flaws, pattern correctness, quality, color and dye lot before cutting and fabricating. We cannot credit your account for goods which have been cut up or fabricated. We do not guarantee dye lots and will not issue credit for dye lot variations unless a sample cutting was submitted with your order for matching.
- On authorized returns, the following schedule will apply:
    - Defective goods, not cut or fabricated, will be credited at your cost plus delivery charges when authorized for return.
    - When any merchandise is returned without fault of the vendor, a 20% resocking charge will apply along with freight costs that were incurred. No returns will be accepted for 6 yards or less.
    - Custom ordered products may not be returned except for defective workmanship and request for return authorization must be made within 2 weeks from date of invoice.
    - No returns will be accepted without prior authorization.

Credits - Credits will not be honored unless an approval has been obtained from RM COCO. Requests for credits are best handled when submitted to us in writing and accompanied with your invoice. Deducting credits prior to receiving our actual credit memo creates numerous problems. Please refrain from deducting any credits until you receive our credit memo. In the case of returns, credit memos can only be issued upon receipt of the merchandise by RM COCO.

Advertising - All advertising of RM COCO products must be dignified, tasteful and professional. Unauthorized use of our trademarks, without prior written approval by RM COCO is prohibited.

Roll Direction - Many fabrics today are delivered to RM COCO rolled with the face side to the inside of the bolt, as well as with the face side to the outside of the bolt. RM COCO will make every effort to roll fabric face side in, however we cannot guarantee this. Many fabrics are reversible or appear reversible. It is imperative that your workroom or decorator knows which side is specified or intended to be used as the face side of your treatment. RM COCO is not responsible for errors made by using the incorrect face for your treatment.

Reserves - We will reserve yardage for five (5) business days for customers with an account number. Swatch for approval or COD/Proforma reserves will also be held for seven (7) business days. We are not obligated to inform customer that a reserve has expired.

Multiple Width Draperies - Because fabric, unlike paper, is not a completely stable "substance", it cannot be taken for granted that when it is printed the pattern is completely "square" on the cloth. Although in printing every effort is made to avoid distortion, occasionally it will exist. Therefore, when planning multiple width draperies, please make certain BEFORE CUTTING that pattern alignment is adequate to produce a satisfactory end result.

Hours of Operation - Customer Service and Custom Creations Customer Service will be here to service your account from 8:00am CST to 5:00pm CST - Monday through Friday.

Check Stock - It is recommended to check stock on all patterns and trims prior to placing orders as stock availibity can change at any time.

FABRIC CHARACTERISTICS & CARE

These characteristics are not considered defects and therefore, not reasons for returning fabric.

Bow, Bias and Seam Matching
The industry standards are 1-1/2" to 2" for bow and bias. Some print and solid patterns may have difficulty with seams matching.

Dyelot Match
If an exact dyelot match is required, please send swatch of material for match. Otherwise, we will ship the dyelot as close to the sample as our stock permits. We cannot accept the return of cut yardage material for full credit because the dyelot is off in cases where a swatch was not sent with the order for match.

Finishes
Applied finishes may help fabrics resist soil and stains, but does not eliminate the necessity of properly caring for fabrics.

Flaring
Flaring of custom drapery returns is a natural characteristic that can occur with certain fabrics, particularly those woven from synthetic fibers. Some casements, sheers, and polyester fabrics may have a greater tendency to flare due to their fiber content and construction. For fabrics where flaring may be a concern, proper fabrication techniques and installation methods should be considered to help minimize the effect. Flaring is considered a natural fabric characteristic and is not a reason for return.

Handwoven and/or Silk Fabrics
Many fabrics are created by home hand weavers thus creating unique qualities. Dyelot variations, inconsistent weaving, heavy threads, wrinkling, flaws, colored yarns, holes, pattern repeats that vary within the same yardage, loose threads, missing yarns and threads, missing beads, pearls, incomplete appliques, puckering around embroidered silks and inconsistent embroidery are natural characteristics. Protect all silks from direct and indirect sun as fading and disintegration are common. Bow and bias may be in excess of industry standards. These fabrics may also have a tendency to stretch in length. These characteristics are not considered defects and therefore, not reasons for returning fabric. Backing is recommended for upholstery use.

Heat Sensitive Fabrics
Many fibers used in drapery fabric construction are sensitive to heat and can cause puckering and hiked hems. Polyester and linen are the most sensitive to heat and must be fabricated with a cool iron only. Acrylic and modacrylic fibers are also sensitive to heat. When measuring a drapery prior to fabrication, check to make sure that the drapery will not hang over a hot air duct or a baseboard heater as it will often affect the drapery once it is hung. Heat sensitive fabrics that are steamed or ironed often shrink or pucker.

Pattern Repeat
Pattern repeat, as listed in this catalog and on samples, is approximate only and can vary slightly from one printing to the next. We cannot guarantee repeat matching.

Puckering
It is natural for some fabrics (i.e. hammered satins, satin stripes) to have a puckered or slightly wrinkled appearance. This is a characteristic of today's more relaxed, casual fabric constructions.

Sheers
Sheers will intensify in color when made into a drapery. Fold a sheer sample three times for a true color reading. Darker sheers have more of a tendency to fade or disintegrate than lighter sheers.

Shrinking and Length Fluctuations
Be tolerant of normal fluctuations in lengths of draperies. Few fabrics are completely stable. Fabrics breathe and absorb moisture, resulting in stretching or shrinking. Fabrics placed over or near heating and cooling vents may react to a much greater degree. We will not be responsible should this situation occur. A 2% to 3% change is reasonable. Allow sufficient fabric in the hems for later adjustments, should it be necessary. Fabrics that are steamed or ironed often shrink or pucker.

Sun Protection
Fabrics should be protected from the sun. We do not guarantee against fading or color fastness. Draperies should be lined. Shades should be drawn during the day and glass protection should be used whenever possible. Window glass magnifies the destructive elements in the rays of the sun. The winter sun and reflection from the snow are even more harmful than the summer sun and may cause disintegration. Colors can fade by oxidation, "gas fading", if fabrics are kept in storage for too long a period without airing. Some colors are more sensitive than others. Impurities in the air may cause as much fading as direct rays of the sun.

Synthetic Fibers
Despite the impressive strides in the advancement of the technology of weaving synthetic fibers, performance will vary with the construction of the fabric and its application. Whole or partial synthetic constructions may have a tendency to react adversely more readily to atmospheric conditions than natural fibers. Synthetic fibers are sensitive to heat, sunlight and steam. Shrinking, hiking seams, puckering and flaring are common characteristics.

Velvet
Velvet nap will crush and may be directional.

Washed Goods
Washed fabrics are processed to achieve a casual and soft appearance. Characteristics such as wrinkling, fading, and puckering are normal. Widths may vary. Bow and bias may be in excess of industry standards and guidelines.

Wrinkling
Wrinkling is a characteristic of linen and cotton blend fabrics.
